PROFILE

A Frontend Developer with an experienced understanding of **HTML**, **CSS** & **JavaScript** (including **Typescript**). I have experience delivering intuitive and responsive user experiences for the web. I am proficient in various different frontend technologies such as **React, Next.js, Tailwind**. I am committed to staying up-to date with the latest technologies.

I am proactive and I seek opportunities to improve my skills while staying current with industry best practices. - I am eager to joining a team where I can continue to grow and advance my career.

EMPLOYMENT HISTORY

Shopify Frontend Developer, Blubolt   Bath, UK
Jun 2023 — Present

At Blubolt, I significantly advanced my career by working with a remote team using **version control** (Git) and adapting to various workflows, including **sprints**. I collaborated closely with CROs, to optimize eCommerce store conversions and became proficient in **Shopify** and its ecosystem.

Frontend Developer, Aztecmedia   Yeovil, UK
Jan 2022 — Mar 2023

At AztecMedia, I built websites using **HTML**, **CSS**, **JavaScript**, and **WordPress**. I took pride in seeing projects through from start to finish, including face-to-face meetings with clients to understand their needs, **designing**, **developing**, and providing post-launch **support**. I focused on creating visually appealing and user-friendly sites, contributing to multiple successful launches.

EDUCATION

Computer Science, Strode College   Street, UK
Jul 2015 — Sep 2017

During my studies, I gained a strong foundation in computer science principles, including **algorithms**, **data structures**, and programming languages such as **JavaScript** and **C#**. I completed coursework in **web development**, **database systems**, and computer hardware. These experiences have provided me with a well-rounded understanding of computer science and have equipped me with the skills and knowledge to succeed in the field.

QUICK NOTE

Thank you for considering my CV. I appreciate your time and effort in reviewing it. If you have **any questions about my experience**, please do not hesitate to **contact me**. Thank you again for your consideration.
